So I know B.D. went circa 28/2/93 or 1/3/93 because we have a fix time & date from Santiago Park of 09.00 - 1/3/93.

The info. about flights from London was in response to a request from B.D. who was sussing it out for Fred. Fred did go to Parque Santiago sometime in early March 93. Billy & Margaret McC. were there too!!

The bottom of the document is an embryonic recognition of the relationships which need to exist for a peace settlement.

These have now been so often repeated - particularly by Hume!
