

29 April 1975

We find their cancellation at short notice of the 30th April meeting disconcerting. We had a number of things which we wished to discuss with them. As they know we attach importance to conducting the dialogue in a business-like way. We understand that they have problems in meeting us on 30 April, which they have not been able to surmount, but we shall be grateful for an assurance that the revised date of 7 May is a firm date. Meanwhile we shall speak to the Ulster Executive of P.S.F. about a number of matters which might otherwise have been dealt with in the context of our dialogue.
