We are pleased at this positive response. Our leading board member is away till Monday 26 April, but in his absence we request to see Mr Brown on Monday in London so that Mr Ferguson can convey the "Yes" position to our Board on Tuesday 27 April. We need to be assured that our nine paragrapher has been accepted as our position (for any future discussion) and most important that Mr Campbell/Campbell confirms (privately or otherwise as he wishes) that the "not a single share position" will be in operation. Ideas on timings would be appreciated.

We are very pleased at this positive response. We agree that it is vitally important for both parties that there is no cause for confusion. Our leading board member is away till Monday so this is only a preliminary reaction, but we would aim to see Mr Brown on Monday in London so that Mr Ferguson can convey the position to our Board on Tuesday. We need confirmation that our nine paragrapher has been accepted as our position for any future discussion. It would help to have some idea on timings envisaged for cessation of debt position because as you know any progress is dependent on this.
